- Gothenburg, Sweden

SKILLS

Programming:
Python, SQL, Kotlin, Java, XML

Libraries & Frameworks:
Pandas, NumPy,
Jetpack Compose, Android SDK,
Room, Glide

Data Visualization & BI:
Power BI, Matplotlib, Seaborn,
Plotly

Developer Tools:
Git, VS Code, PyCharm,
Postmam, Jira / Trello,
Android Studio, IntelliJ

DevOps:
Firebase Hosting

Data Skills:
Data Cleaning,
Exploratory Data Analysis (EDA),
Working with APIs

Design & Creative Tools:
Figma, Zeplin

Testing:
JUnit, Espresso

LANGUAGES

Spanish	Native
English	Fluent
Swedish	C2

PROFILE

Android Profile

Recent graduate in mobile application development with hands-on experience building Android apps using Kotlin, Jetpack Compose, and Firebase. Passionate about creating clean, user-friendly mobile experiences, with a focus on performance and accessibility. Completed multiple personal and group projects simulating real-world development cycles using Git, Agile methods, and REST APIs. Now seeking a junior Android developer role where I can continue learning while contributing to meaningful app development.

Data Analytics Profile

Recent graduate in data analytics with hands-on experience working with datasets using Python, Pandas, and SQL. Passionate about transforming raw data into clear, actionable insights, with a focus on accuracy and clarity in communication. Completed multiple personal and group projects analyzing real-world datasets using Jupyter Notebooks, data visualization tools, and collaborative Git workflows. Now seeking a junior data analyst role where I can continue learning while contributing to data-driven decision making.

EXPERIENCE

Linero Tech AB　　　　　　　　　　📍 Gothenburg, Sweden
ANDROID DEVELOPER INTERN　　　　　　Jan 2025 to Present

- Developed key UI components using Jetpack Compose for a student tracking Android app aimed at 10,000+ active students
- Implemented Firebase Authentication and integrated real-time database functionality for user profiles
- Collaborated in Agile sprints using Git and Jira, regularly contributing to planning, stand-ups, and retrospectives
- Wrote unit tests in JUnit to ensure feature stability before release
- Improved app startup time by 15% through code refactoring and image optimization
- Participated in weekly code reviews and received mentorship on Android architecture patterns (MVVM)

GH Analytics AB　　　　　　　　　　📍 Gothenburg, Sweden
DATA ANALYST INTERN　　　　　　　　　Aug 2024 - Jan 2025

- Built interactive sales dashboards using Power BI, helping the marketing team track KPIs across 3 regions
- Wrote SQL queries to extract and clean customer data from a MySQL database
- Performed trend analysis on user engagement using Excel and Python (Pandas, Matplotlib)
- Presented weekly insights to stakeholders, contributing to a 12% increase in newsletter click-through rates
- Collaborated in a cross-functional Agile team, using Jira to track tasks and sprint progress
- Automated manual reports, reducing data processing time by 30%

Humberto's GBG Pizzeria   📍 Gothenburg, Sweden

RESTAURANT SERVICE CREW MEMBER - WAITER   Jan 2024 - Aug 2024

- Delivered fast, friendly service in a high-paced setting, managing up to 8 tables at once
- Resolved customer issues maintaining a positive experience under pressure
- Collaborated with a team of 10+ staff, ensuring smooth service during peak hours
- Used a digital POS system to process orders and manage transactions efficiently
- Developed strong communication, multitasking, and time management skills in a fast-paced setting

EDUCATION

M.S. in Software Engineering   📍 Gothenburg, Sweden

CHALMERS UNIVERSITY OF TECHNOLOGY   Jan 2025 - On going

- Agile Development & Project Management
- Mobile Software Engineering (Advanced)
- Cloud-Based App Deployment (Firebase/Azure/AWS)
- Continuous Integration & DevOps

Bachelor's in Data Analytics   📍 Florida, United States

UNIVERSITY OF SOUTH FLORIDA   Sep 2021 - Aug 2024

- Business Intelligence Tools
- Data Structures & Algorithms
- Data Visualization tools
- Database Systems (SQL/NoSQL)

Apputvecklare   📍 Lerum, Sweden

LERUM VUXENUTBILDING   Jan 2019 - Aug 2021

- Kotlin Programming Fundamentals
- Jetpack Compose UI Development
- Room Database & Local Storage
- REST API Integration & JSON Handling
- MVVM Architecture in Android

PROJECTS

Student Helper App   Aug 2024 - Oct 2024

- Built a productivity app for students to manage tasks, set reminders, and track deadlines
- Developed using Kotlin following MVVM architecture with Jetpack Compose
- Implemented local data storage using Room database
- Implemented push notifications with Firebase Cloud Messaging
- Designed an intuitive user interface with Compose UI, focusing on accessibility
- Conducted manual testing and collected user feedback from peers to iterate on features

TaskMate - Student Productivity App   Mar 2023

- Worked in a 4-person team to build a productivity app for university students to track tasks
- Personally developed the task scheduler using Kotlin and Room database
- Designed responsive UI components focused on accessibility and ease of use
- Followed Agile methodology with weekly stand-ups and task tracking

CERTIFICATIONS

Firebase Certification   Oct 2024

- Integrated Firebase Authentication with custom login flows using Kotlin and Jetpack Compose
- Managed real-time data using Cloud Firestore and structured document-based storage efficiently
- Integrated Firebase Crashlytics for real-time error monitoring and crash reporting
- Applied Firebase App Distribution for streamlined internal app testing
- Deployed a complete Android project demonstrating all features in a GitHub portfolio
